

Inspiration is so important in all of our lives. I was inspired to write this book after reading a book from 1911 called Lessons in Number Vibration by Mrs. L. Dow Balliett. My intent is inspiring you to find your path to power through the use of color and numerology. What inspires you to do what you do each day? Take this book along with you to read the daily inspiration and let it inspire you to become the person you were meant to become! Along with daily inspiration there is also a daily color guide for what colors are best to wear each day according to numerology. Every number has a corresponding color and like everything in our universe including ourselves it sends out a frequency. Simply wear the color that corresponds with each day and become more harmonious with the energy that surrounds you. Heres to a wonderful 2010 and a colorful and harmonious year!
